

# Development Review Committee Agenda

Chehalis Building and Planning Department

March 2, 2022, at 9 A.M.

Meeting Location: Chehalis Airport Conference Room

**9:00 AM**

**Applicant Conference:**

**AC-22-004; 190 Kennicott Rd.** Applicants are proposing to construct a private road and turn-around in conjunction with a proposed short plat of 5 lots. Septic systems and the Group B well type are proposed. LC Parcel # 010804003000. The site is zoned RUGA. The site contains steep slopes and is within a landslide hazard zone.

**9:30 AM**

**Applicant Conference:**

**AC-22-005; 273 Maurin Rd.** Barghausen Engineering is proposing the construction of an industrial warehouse building of 427,100 sq ft. The project proposes grading work, paved parking areas, dock loading, as well as water, sewer, and stormwater utilities. SEPA-15-0007 was a similar proposal in 2015. LC Parcel # 017744004001, 017746004002, 017746004003. The site is zoned IL, a closely related use code, "Distribution Center" is a permitted use, manufacturing facilities are either conditional or permitted depending on what is being manufactured.

**10:00 AM**

**Site Plan Review:**

**ST-22-0001; 0 N Hamilton Rd.** Fuller Designs is proposing a mini storage and RV parking facility. The project area is zoned CG in the UGA, and open parking lots/mini storage are permitted uses in this zone. LC Parcel # 017765004002,017896006003,017896005000,017765005000. The project has received an MDNS with an appeal period end date of 3/3/22.

**10:30 AM**

**Hearing Examiner Recommendation:**

**CU-22-001; 52 SE Spring St.** David Duvall is proposing the installation of a manufactured home. This site is zoned R1, and the use of a manufactured home is considered conditional. LC Parcel # 005604053038.

**11:00 AM**

1. Interdepartmental meeting
2. Informational Reports

## **Project Description for Presubmission Conference Panattoni Chehalis Industrial Warehouse Project**

The proposed project consists of the development of a new Industrial/Warehouse project on approximately 17 acres of undeveloped industrial land. The project will include a 427,100 square foot building with dock high loading on both the north and south sides, approximately 20,000 square foot of office space, 407,100 square foot of warehouse space, approximately 300 vehicle parking spaces, approximately 216 trailer parking spaces and 116 dock doors.

The project will consist of concrete tilt up construction with a maximum building height of 45 foot. Other building materials will include glass, metal and wood. The type of construction will be Type III-B. Access to the site will be from two new 45-foot-wide entrances to Maurin Road as shown on the proposed site plan. The project is currently a speculative warehouse with no specific tenants at this time.

A previous SEPA DNS was issued by the city to the Port of Chehalis for the project site on October 14, 2015. Work under the land use decision included a fill and grade permit to raise the site above the flood plain, extending existing sewer and water utilities in Maurin Road to within the site, undergrounding electrical services and extending above ground electrical, constructing three new industrial buildings totaling 294,000 square foot, constructing onsite storm water detention pond and creating rail access onsite by extending a branch of the existing rail spur southeast and east to the project site.

**List of Questions for  
Presubmission Conference  
Panattoni Chehalis Industrial Warehouse Project**

1. Confirm that the proposed site plan layout and proposed use shown as an industrial/warehouse building is acceptable in the zone.
2. Confirm If a SEPA addendum will be required for the proposed project given that a previous SEPA was issued by the city in 2015 for a three-building project totaling 294,000 square foot of industrial warehouse space.
3. Confirm any special studies or reports required for the project other than a Traffic Study and Geotech Study already planned to be prepared.
4. Confirm building and landscape setbacks for the project.
5. Confirm any significant development requirements or constraints associated with the site based on the proposed site plan.
6. Confirm that the site is not located within a 100-year flood plain since a grade and fill permit was issued in 2015 and the site has been filled to elevations above the flood plain.
7. Confirm landscape and any tree preservation requirements for the project.
8. Confirm parking requirements for both the warehouse and office uses.
9. Confirm fire department access requirements.
10. Confirm the required fire flow for the project, the available fire flow and fire hydrant spacing requirements.
11. Confirm storm drainage detention and water quality standards applicable to the project. Based on review of the grading plans and storm report previously prepared for the project and constructed, it is our understanding that the detention and any required compensatory storage requirements have been provided for in the constructed storm pond.
12. Confirm the locations, size and capacity of existing water and sanitary sewer services available to serve the proposed project.
13. Confirm any required frontage road improvements along Maurin Road.
14. Confirm that the proposed access points as shown on the proposed site plan are acceptable.
15. Confirm any assessments, significant fees or impact fees associated with the project.

16. Based on the proposed development proposal, please provide your best estimate of the timing and steps to process a SEPA amendment, site work construction permit and building permit based on the current city workload.
17. Confirm any additional land use permits, approvals or permits from other agencies that will be required for the proposed project.

## MITIGATED DETERMINATION OF NONSIGNIFICANCE

**Description of Proposal:** Fuller Designs is proposing the development of a new mini storage site with RV parking. The site is within the Chehalis Urban Growth Area, General Commercial zone. Open parking lots and mini storage are permitted uses in this zone. Lewis County Parcel #017765004002, 017896006003, 017896005000, 017765005000

**Proponent:** Fuller Designs; 1101 Kresky Ave, Centralia WA 98531

**Location of proposal:** 0 Hamilton Rd, Chehalis WA 98532

**Lead agency:** Chehalis Building and Planning Department

Chehalis Building and Planning Department has determined that this project does not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030 (2)(c). This decision was made after review of a completed environmental checklist and other information on file with the City. This information is available to the public on request.

This MDNS is issued under WAC 197-11-340(2); the lead agency will not act on this proposal for 14 days from the date below. Comments must be submitted by 4:00 PM **March 3, 2022.**

Responsible Official: Tammy S. Baraconi  
Position/title Building and Planning Manager, City of Chehalis  
Phone: (360) 345.2227  
Address: 1321 S. Market Blvd, Chehalis, WA 98532

Signature: *Amelia Schwartz*  
Amelia Schwartz for Tammy Baraconi **Date: February 17, 2022.**

You may appeal this determination to City of Chehalis – Building and Planning Department, 1321 S. Market Blvd., Chehalis, WA 98532. You should be prepared to make specific factual objections. All substantive appeals must be filed with City of Chehalis in writing with a \$500 fee plus the cost of the hearing examiner submitted by 4:00 PM on **March 3, 2022.** You may contact Tammy Baraconi to ask about the procedures for SEPA appeals.

## **CITY OF CHEHALIS COMPREHENSIVE PLAN**

The proposed development is compatible with the following goals and policies of the City of Chehalis Comprehensive Plan:

### Chapter 3, Land Use

- LU.04.01 Encourage residential, commercial and industrial development at appropriate densities to meet population and employment demands.
- LU.04.02 Encourage development in areas where adequate public facilities and services already exist or can be provided in an efficient manner.

## **CONDITIONS OF THE MITIGATED DETERMINATION OF NONSIGNIFICANCE**

- A Construction Stormwater General Permit is required by the state Department of Ecology. The applicant may apply online or obtain an application from Ecology's website at: <http://www.ecy.wa.gov/programs/wq/stormwater/construction/> - Application. Construction site operators must apply for a permit at least 60 days prior to discharging stormwater from construction activities and must submit it on or before the date of the first public notice.
- The project must receive approval of the preliminary plat before construction begins. A final plat must be recorded with the Lewis County Auditor before final occupancy can be granted.
- Landscaping must be done by a Washington state-licensed landscape architect as referenced in RCW 18.96.
- Modification or construction of road approaches to Hamilton Road will require road approach permits from Lewis County Public Works.

This decision considers comments received from the public, the Department of Ecology and Lewis County in addition to reviewal by City of Chehalis departments.

The environmental threshold determination is based on analysis of information contained in the following documents:

- Environmental Checklist prepared by Fuller Designs
- Preliminary Civil Plans prepared by Fuller Designs
- Traffic Impact Analysis prepared by Heath & Associates
- Drainage and Erosion Control Report prepared by Fuller Designs
- Geotechnical Report prepared by Quality Geo NW

**Notes:**

1. The issuance of a Mitigated Determination of Nonsignificance does not constitute project approval. All building plans and site design must meet the following: 2018 International Fire Code, the 2018 International Building Code, the City of Chehalis Engineering Development Code (CMC Title 12) and the City of Chehalis Municipal Code (CMC Title 17) and all other applicable local, state, and federal regulations.
2. The Mitigated Determination of Nonsignificance is based on the applicant developing the site in accordance with the site plan as approved by City of Chehalis for the associated project.
3. If contamination is currently known or observed during construction, sampling of the potentially contaminated media must be conducted. If contamination of soil or groundwater is readily apparent, or is revealed by sampling, the Department of Ecology must be notified. Contact the Environmental Report Tracking System Coordinator at the Southwest Regional Office at (360) 407-6300. For assistance and information about subsequent cleanup and to identify the type of testing that will be required, contact Andrew Smith with the Toxics Cleanup Program at the Southwest Regional Office at (360) 407-6316.
4. Erosion control measures must be in place prior to any clearing, grading, or construction. These control measures must be effective to prevent soil from being carried into surface water by stormwater runoff. Sand, silt, clay particles, and soil will damage aquatic habitat and are considered pollutants. Any discharge of sediment-laden runoff of other pollutants to waters of the state is in violation of Chapter 90.48, Water Pollution Control, and WAC 173-201A, Water Quality Standards for Surface Waters of the State of Washington and is subject to enforcement action.
5. All grading and filling of land must utilize only clean fill. All other materials may be considered solid waste and permit approval may be required from the local jurisdictional health department prior to filling. All removed debris resulting from this project must be disposed of at an approved site. Contact the Lewis County health department for proper management of these materials.
6. Construction and earthmoving activities have the potential to generate excessive dust emissions if reasonable control measures are not implemented. SWCAA Regulation 400-040(2) requires that “no person shall cause or permit the emission of particulate matter from any stationary source to be deposited beyond the property under direct control of the owner or operator of the stationary source in sufficient quantity to interfere unreasonably with the use and enjoyment of the property upon which the material is deposited”. Furthermore, SWCAA Regulation 400-040(8)(a) requires that “the owner or operator of any source of fugitive dust shall take reasonable precautions to prevent fugitive dust from becoming airborne and shall maintain and operate the source to minimize emissions”. Violations of SWCAA Regulation 400-040 may result in civil penalties being assessed against the project operator and/or property owner.
7. During construction, all releases of oils, hydraulic fluids, fuels, other petroleum products, paints, solvents, and other deleterious materials must be contained and removed in a manner that will prevent their discharge to waters and soils of the state. The cleanup of spills shall take precedence over other work.
8. In the event any archaeological or historic materials are encountered during project activity, work in the immediate area (initially allowing for a 100’ buffer; this number may vary by circumstances) must stop and the following actions taken:

- Implement reasonable measures to protect the discovery site, including any appropriate stabilization or covering; and
- Take reasonable steps to ensure the confidentiality of the discovery site; and
- Take reasonable steps to restrict access to the site of discovery.

The project proponent will notify the concerned Tribes and all appropriate local, state, and federal agencies including the Department of Archaeology and Historic Preservation and the City of Chehalis Community Development. The agencies and Tribes(s) will discuss possible measures to remove or avoid cultural material and will reach an agreement with the project proponent regarding actions to be taken and disposition of material.

If human remains are uncovered, the City of Chehalis Police Department shall be notified first, and the above steps followed. If the remains are determined to be of an Indigenous person, consultation with the affected Tribes will take place in order to plan for the final location of said remains.

See the Revised Code of Washington, Chapter 27.53, “Archaeological Sites and Resources,” for applicable laws and statutes. See also Washington State Executive Order 05-05, “Archaeological and Cultural Resources.” Additional state and federal law(s) may also apply.

Thank you,

*Amelia Schwartz*

Phone #: 360-751-8062 Email: (required) dauidduvall80@gmail.com

**Project Description:** (Create a project narrative on a separate page if there is not enough room to completely describe your project below.)

We removed a tear down house and we would like to install a new

Golden West 48'x27' Manufactured home, with door facing road.

Current market value of proposed work: \$325,000  
 (Fair market labor and materials)

Only the plan(s) submitted will be reviewed for compliance with applicable codes. By signing below, you grant permission for any City of Chehalis employee the right to access and remain on the property for the purpose of review and approval of this proposal and to conduct inspections related to this proposal.
